armchair metal legs

Upholstery line of lounge seating furniture consisting of armchairs and sofas.

ames foss

lounge seating

Foss is named after the word for waterfall in Iceland, the home of designer Erla Sólveig Óskarsdóttir – and its comfy middle section flows down and out, melding backrest and seat. Be it in the oval sofa or the round armchair version. Typically ames, Foss spoils you for choice. There are wood or metal base frames and thanks to the skill of the Italian craftsmen who make the upholstery, the option to use different colored high-grade fabrics for the outer sections. Foss' combination of comfort and clean Nordic lines makes it ideal for home or office use, or even hospitality zones.

sofa wood legs

Sofa with a solid oak frame, either natural or with a grey or dark brown finish.

armchair wood legs

The geometrically formed armchair with solid oak frame perfectly matches the Foss sofa.

colours & materials

To see the full range of colours and materials please order our »material charts«.

wood legs

The wood is FSC standard and chemicals free to ensure that natural ames ambience – and available in natural oak, dark gray or coffee.

cosy furniture ideal for lounging
